

Exploring Australia

The Show

Multi award winning children's songwriter and entertainer, Kathy Possum, is going bush again on her second national tour!

Exploring Australia is a unique and interactive musical show where Kathy Possum leads children on an imaginary, fun-filled bush adventure. Children help Kathy Possum find and follow clues about Australia and its wildlife as they search for a 'mystery animal'.

Exploring Australia is a stand-out incursion featuring impressive production including: bush scene stage setting, professional sound system, lights, bubble machine, custom animatronics and professional puppets.

Testimonials

Original songs, quirky instruments, interactive resources and a brand new cast of furry friends will excite and delight children as they:

- Tap along on mini lagerphones
- Hop around the 'bush' donning kangaroo ears
- Watch a life-sized wombat magically wobble out of its burrow

The fun doesn't stop there! Post-show resources provide the opportunity to maximise learning outcomes through fun educational activities.

The children talked about [the show] for days, some even weeks, after the performance. I would really like to invite Kathy Possum back to our centre for many years to come.
(Amanda Condren, Curry Kids)

The children and staff have not stopped talking about the show!
(Amanda Stephan, Moranbah Neighbourhood Centre)

We absolutely loved Kathy's Show! I would strongly recommend any other organisation book a show with Kathy. You would not be disappointed.
(Janelle Atwell, Ewin Centre)
